

SEPTEMBER 8-10, 2006  
LAKE WINNIPESAUKEE, NEW HAMPSHIRE

Fellow sailors, families and friends:

It is with great pleasure that I welcome you to the 19<sup>th</sup> annual J-Jamboree, the 2006 J80 North American Championship Regatta.

The Lake Winnepesaukee Sailing Association's (LWSA) general purpose is to encourage the sport of sailing and racing; to introduce and teach young people sailing ...; to forward and advance sailing in all its phases and more particularly to promote competitions and regattas under uniform rules among members and other clubs within our region; and to foster local, national, and international competition.

The LWSA in conjunction with J80 Fleet 1 continues this purpose on Lake Winnepesaukee in New Hampshire by organizing and hosting the 2006 J80 National Championships.

During the past 19 years, this early fall regatta has grown to be recognized as the premiere event in this region. Originally attended by fleets of J22, J24, and J27 enthusiasts, the Jamboree has over recent years become an exclusive J80 regatta. Our local Fleet 1 with its 18 J80s welcomes our visiting boats. This year's event has attracted a great fleet of J80s all determined to become the next North American Champion.

Our Sponsors and Industry Partners are enabling us to produce an event that will meet the high standards that you would expect of a nationally sanctioned regatta. We are grateful for the support from Merrill Fay and the crew at Fay's Boat Yard, to our sailing industry supporters, to local business's and to those businesses of many members of our host Fleet 1 for their sponsorship. Please be sure to check out the roster of our sponsors and keep them on your list of preferred services and suppliers.

We are also indebted to a host of volunteers, many of them members of the LWSA and Winnepesaukee Yacht Club. Without their dedicated efforts, this event would not be possible.

Here's hoping that this guide book will provide all the information you will need to make your visit to New Hampshire and participation in this year's North American Championship enjoyable, exciting, and memorable.

Wishing you all fair winds and good racing.

Bob Knowles

## J-JAMBOREE HAUL-OUT PROCEDURE

### HAUL OUT ORDER

The order of haul-out will be as shown in the table below. However, if a boat is not ready for haul-out in its proper sequence, the haul-out team will order the next boat which is ready for haul-out to move to the haul-out point in order to keep the flow moving. We have about 12 boats to haul-out so your preparation is the key to doing it quickly. If you are #1, #2, or #3 in sequence, it will be important, once you dock, to quickly send a crew member (who can skillfully back the vehicle and trailer) to Sawyer’s parking lot to pick it up. The vehicle for the first boat to be hauled out should proceed directly to the haul-out point. All other boats should queue up at the ice rink (4) waiting for instructions from a member of the haul-out team who will be in radio contact with the haul-out point.

Haul-out #	Bow#	Boat Name	Owner
1	3	Over Achiever	Jason Balich
2	5	Spank Me	Bob Limoggio
3	6	Angry Chameleon	Brian & Kristen Robinson
4	7	Crush	Mark Gorman
5	8	Dragonfly	Chris Johnson
6	9	Moosestaken Identity	Marty Olsen
7	16	Rumor	John Storck, Jr.
8	19	Lifted	Kerry Klingler
9	20	Plan B	Greg Packard
10	21	USA 352	Blake Fleetwood
11	22	Bigamy	Dennis Meichel
12	25	Valiente	Caleb Everett

### PREPARATION FOR HAUL-OUT

We will pull the mast out at the first haul-out station. Please have your sails, boom, and mast instruments removed, forestay and backstay detached, and all shrouds with the exception of the uppers removed. The uppers should be only hand tight so we can quickly loosen them to remove the mast. If you wish to leave your stern pulpit support for your mast near the haul-out area on Sunday morning with the name of your boat on it, that may save some time.

### TRAILER POSITIONING

Members of the haul-out team will guide you in positioning your trailer.

### AFTER YOUR BOAT HAS BEEN LOADED ON YOUR TRAILER

Please move your trailer to the ice-rink parking lot (4) to complete the job of fastening straps etc. so as to make room for the next trailer to back in.
